## What is MOODLE?

## Moodle is a software for e-Learning Management System

Our platform is designed to improve online teaching and learning processes. It is specifically designed for educators, learners and administrators.

## Why Choose Moodle?

## Access Learning Materials Anytime

Lecturers can use Moodle to upload assignments, syllabus, quizzes, open learning discussion forums, or provide assessments to students. Create your first personalized learning environment with our platform.

## **Flexible and Efficient**

Our web-based platform can be accessed through a laptop or desktop, and available in Android and iOS as well.

## **Target Moodle?**

### Who uses Moodle?

Our platform is mainly designed for educators, learners and administrators. With a simple platform, an intuitive and easy-to-use dashboard, Moodle helps lecturers build an inspiring online learning environment.

**Cohorts & Course** 

**Easy to Use LMS Platform** 

## Access via Desktop or Mobile

### **Personalized Dashboard**

Our platform is designed so that administrators can manage the dashboard easily. Assigning any role for admin, educators, and students is easy with just a few simple clicks.

### Simple Method to Add New Course

Specify the name, category, and learning period, or add custom pages into a specific course.

## **Complete Backup Options**

Managers (administrators) have the option to set automatic backups. The whole data (name of educators, course, etc) can be restored whenever needed.
